Explore and buy digital mapping

Open mapTrunk to explore our digital mapping services and buy maps or data from Ordnance Survey and other data publishers

www.maptrunk.com

mapTrunk

Features

- Easy-to-use interface

- Access to the very latest topographic datasets

- Street name, postcode, town, or What3Words search facility

- Simple ordering process

- Digital data available in a range of formats

Benefits

- Save on Ordnance Survey RRP for OS Mastermap

- Application ready data – no need to process

- Data available immediately on purchase

- Available 24/7/365

- Compliant .pdf maps - we are a Scottish Government approved supplier of .pdf maps (for submitting with Planning Applications)

About

mapTrunk

Our easy-to-use, self-service online map shop mapTrunk allows you to purchase Ordnance Survey Mastermap data in a range of application ready formats in just a few simple steps. mapTrunk is an express service and offers great savings on the OSRRP.

Download Data

Mark or upload your area of interest, view your quote and order data for use in GIS or CAD systems. Data is available in a range of formats including Shapefile, DXF and MID/MIF delivered to you quickly via email.

PDF Map Builder

In just three easy steps you can create a PDF map, and add your own customisation with our easy-to-use annotation toolkit.

Approved supplier

eDevelopment.scot

Partner

"We chose to use mapTrunk as it's extremely straightforward to use, quickly delivers data directly to our inbox for immediate use in our projects and (as data is available at a discounted price) has saved us, and our clients money."
Director, Streetwise Services Limited
